

Agnes Carlsson, (Baby) I Want You Gone

I've got love, a good life
Everything is alright
What do you want from me?
You always try to bring me down
Could it be jealousy?

[BRIDGE]

Everything I do is not good enough
from your perspective
Boy, I'm wrong... Nooooo!!!
You say you still believe in us
You're just pretending
as if I don't know... but I know (oh, oh)!!!!

[CHORUS]

When you see me, please don't talk
You've said it's all my fault
I'm hurting and you're the cause
Baby, I want you gone!!!!
It was over from the start
Played games with my heart
You've gone way to far
Baby, I want you gone!!!
I'm young, it's alright
I need to grow without you, can't you see
So I'll say goodbye to all the heartache
and the misery

[BRIDGE]

[CHORUS]

No more debating
Got nothing to prove anymore, anymore
Now we've both reached the finish
We're done and we're through
Time to go, you should know

[CHORUS x2]
