## Agnes Carlsson, (Baby) I Want You Gone

I've got love, a good life Everything is alright What do you want from me? You always try to bring me down Could it be jealousy? [BRIDGE] Everything I do is not good enough from your perspective Boy, I'm wrong... Noooo!!! You say you still believe in us You're just pretending as if I don't know... but I know (oh, oh)!!!! [CHORUS] When you see me, please don't talk You've said it's all my fault I'm hurting and you're the cause Baby, I want you gone!!!! It was over from the start Played games with my heart You've gone way to far Baby, I want you gone!!! I'm young, it's alright I need to grow without you, can't you see So I'll say goodbye to all the heartache and the misery [BRIDGE] [CHORUS] No more debating Got nothing to prove anymore, anymore Now we've both reached the finish We're done and we're through Time to go, you should know [CHORUS x2]
