

# Air Supply, Don't Turn Me Away

We shared such a special love  
It seemed to have no end  
But now it hurts me just to remember  
Your eyes used to tell me so much  
That words could never find  
And now you say you don't know  
Where your future lies  
But you've got to find it now  
Or get left behind

(Chorus)

Please don't turn me away  
I can't forget it all in just one day  
Take some time to speak your mind  
But say it's not over  
Please don't turn me away  
Don't close the door on us this way  
I'm so sure that there's much more  
You just have to tell me

Remember those fireside nights  
It's not that long ago  
You said you wanted to stay there forever  
I gave you the strength of my hand  
When things were running low  
I didn't know you would go back on  
What you said  
There must be some reasons there  
That you don't want to share

(Chorus)

Please don't turn me away  
I can't forget it all in just one day  
Take some time to speak your mind  
But say it's not over  
Please don't turn me away  
Don't close the door on us this way  
I'm so sure that there's much more  
You just have to tell me

And just when you needed me  
I said I'd be there until the end  
What is it that's changed in you  
When all I want is to be your friend  
(I need a friend)  
Don't turn me away
