

Aisha, Everything Is Gonna Be Ok

Chorus:

Today, everything is gonna be okay
God will help you find your way
I know it will work out fine
If you just give it time

Verse 1:

Sometimes life doesn't work out the way we planned
The moments we don't understand
The design
At that time
The dreams that extend beyond reality
A struggle with duality
But it will be okay

Chorus:

Today, everything is gonna be okay
God will help you find your way
I know it will work out fine
If you just give it time

Verse 2:

Life changes so much, so fast
We cherish the moments that last
But you can't keep living in the past
For long singing the same song
Get up

And write a new melody
Filled with all the rhapsody
In your heart
And let it start
You on your way

Chorus:

Today, everything is gonna be okay
God will help you find your way
I know things will work out fine
If you just give it time

Bridge:

When you look around you see
Heartache and misery
But it doesn't have to be
This way
I pray
God will help you find your way
I know things will work out fine
If you just give it time
Just give it time

Gonna be okay
Gonna be okay
Just give it time
