

Aitch, Brap

(Got plans about making grands, if man understand then I wanna hear you say "Brap"
Stacks that I wrapped in bands, splash cash with the fam and the gang, lemme hear you say "Brap"

Got plans about making grands, if man understand then I wanna hear you say "Brap"
Stacks that I wrapped in bands, splash cash with the fam and the gang, lemme hear you say "Brap"
Don't stand in the crowd all prang, we all wanna see hands on hands like brap
Slow down, oi, fuck it, skank on a madman ting like brap, brap, brap

Man know that I shut down shows the most
So if you wanna step on stage, that's calm but man best pray to a Holy Ghost
Mans out here doing my ting, too many lyrics and I think I might overdose
And to all those MC's that ever thought they could try, I'd like to propose a toast (Jeez)
Kill two MC's in the same tune, man cause a collateral damage
Might just go for a third one, spin him and hurt one, fuck him, I'm ready, lets have it
I set pace so a guy can't hack it or manage, start ripping and spitting in Spanish
Grime, rap, trap, savage, Aitch is the all-round package (Ayy)
But I swear down, don't let your hair down
Sixteen bars, make a pussyhole vanish
Zip up a man like luggage and baggage
Don't look when I back it, this lyrical clip does damage (Boom)
Make banging songs when I clap it
I raise the bar, what, you think you can grab it? Ha, sack it

Me, I got an A star in flowing on beats, man's there like "How does he do this?"
Might touch yard for a quick recharge then I'm back on my shit like, baow, let me slew this
Sip a quick drink, all the mandem link
But the liquor's too strong, gotta kick like Bruce's
Me, I don't make beats or nuttin' but these MC's still think I'm a Rudekid (Okay)
Woah, got tracks that'll see the place alight
Woah, she got back but I need some space tonight
Woah, like me, I can't stay the night
Woah, fuck a bitch, I'm tryna get paid tonight
Woah, just watch how I switch and fix up
Tempo lifts up, mic gets picked up
Shit cuz, another beat got ripped up, it's fucked (Fucked)
Fly through beats, don't know 'bout slip-ups
My two feet don't know 'bout
.... walk round with a thing tucked
Can't talk greaze, big man need to fix up
