

# Aitch, Mario Kart (feat. Rago Loco)

Test Aitch like what come again  
Tell a man rest up in the booth key'd up, go ahh joke  
Me I do, on the beat man come like Mario Kart (vroom)

And now I'm rappin', I been lappin man with bars  
I'm ahead by far, you're gonna need a headstart

I, step in the booth with class I'm a maestro  
Flow too nice though when I breeze past with a bitch and my hand on nitro  
Dunno I'm takin' her home shes a psycho (shes mad)

Yoshi best get back, lick up a turtle shell to his head back  
Swervin lanes like a burning chase  
But it's peak when I get some space and I draw for the jetpack

Rags tell em, sixteenth of sixteen back to back  
They still talkin wack so they daft, shell em  
Poisonous bars, I spit mad venom

Yeh track shellers, rag shellers  
Shower bad weathers  
I do skrt on the beat like Mario, I got mad tekkers

Yo I pass man like vroom!  
S-star with a mushroom  
If I'm on it then it's a good tune  
What I got day ones summer like June

So I may, light up your day  
Or light up you if you get in my way  
Southside from where the shells go boom  
Bounce on man might send for the goons

And you can't get over racks  
I'm trapman won't get overlapped  
Go over heads when I caught my wraps  
If it involves coins then I'm all over that

Cause I work to get paid and in this race I'm getting first place  
And if man tests put shells in man just like my birthplace
