

Akon, Change Comes (prod. David Guetta)

Standing around outside the club.
Wishing everyone knew here it was.
But that days soon come.
Static trying get some love
No one cares when you ain't got none
When you getting day all gone.
Dose say you wont make it.
Judging from your past
They still say that you wont nothing
You was race way to fast.

You wouldn't say you can't take it.
You success one last.
But let me tell you something, yeah.

Don't you believe it.
Cause that's just the way is.
We don't change that's tonight.
Something never change.
We don't change that's tonight.
Cause that's just the way is.
We don't change that's tonight.

Never thought you lie.
Like I do tonight.
I thought that feelings in my heart
That is not gonna change.
Up and kiss those lies
And still we over night.
I thought that feelings in my heart
That is not gonna change in tonight!

So toast it up toast it up.
If you got that baby that's is all gonna change.
