

# Ala Boratyn, Don't believe them

Follow me i'll open a secret gate before you  
I know a plac where things aren't only back and white  
People have happines in their eyes  
You can see other faces of a life  
I'll never lie to you  
I'll never hurt you again  
Run away from their empty words  
Don't believe them  
Don't let it waste you again  
Don't believe them  
Don't fall in a deep black hole  
Don't believe them  
They wait for a chance to mislead you  
Don't believe them  
Now come and stand on the edge of the earth  
Then look down and think about your mistakes  
Mak it good speed up and just take one step  
Makes you feel better cause now you're falling down
