

Alabina, Sahara

Sahara
Truth is in your eyes
Embrace the emptiness in me
Am i thirsty for your company
Beyond the desert with sahara
Risk is my life
When my car breaks down
Lost in the dume
A hundred miles from town
The sun beams down
Taking its toll
I light a fire
Pray that someone see the smoke
Holding unto hope
Something deep inside me cant say no (sahara)
Tanto asi me day
Me encuentro en tu desierto hoy
Ya no te eh podido atravesar
Muchos lo estan tratando sahara
Beyond the drout, beyond the floods
Beyond the mountains in the world
Beyond the roads, beyond the wall
I am driven to your door
Beyond the fruits of temptation
Beyond the roads that i have gone
The only endless thing i see is
I am reaching for your hand
I will be your faith
Am i following your cause
Leaving loneliness behind this wall
Beyond the desert with sahara
Hoy conmigo esta
Ojo que mata al mirar
No arde en medio, quiero contigo hay
Estoy abocu sahara, sahara
This faith is everything
The only willingness i see
Theres a caravan that waits for me
Beyond the desert with sahara, sahara
