

# Alan Walker, All Falls Down (feat. Noah Cyrus with

What's the trick I wish i knew  
I'm so done with thinking through  
all the things I couldn't been  
and I know you wonder too  
all it takes is that one look you do  
and I run right back to you  
You crossed the line  
and it's time to say fuck you!

what's the point in saying that  
when you know how I'll react  
you think you can just take it back  
but shit just don't work like that  
you're the drug that I'm addicted to  
and I want you so bad  
guess I'm stuck with you  
and that's that

cuz when it all falls down  
then whatever  
when it don't work out for the better  
if we just ain't right and it's time to say goodbye  
when it all falls down  
when it all falls down  
I'll be fine /3x

you're the drug that I'm addicted to  
and I want you so bad  
but I'll be fine

why we fight  
I don't know  
we say what hurts the most  
staying cold  
but you take it personal  
all this firing shots  
and making grounder  
it's way too hard to cope  
but I still  
can't let you go

all falls down /4x
