

# Alastis, Bring Down

Everything falls down around you  
Everything falls down within you  
Everything's so dark in your mind  
Hopelessness brings down all spark of your pride

You feel...so bad  
...Useless

Everything falls down around you  
Everything falls down inner you  
Mysterious power...beyond darkness  
The light

You feel...so bad  
...Harmful

Now you're welcome in our world  
You can feel the truth, toward the Death  
Now you're welcome in our despair  
Down, down darkest abysses

Everything, falls down  
Everything, so dark  
Everything, falls down  
Hopeless, brings down
