

Albert Hammond, Jr., 101

Though it took me be surprise
One by one, I realized
There was something I could do

"I lost my way," that's what she said
Back to the 101
If we don't know somewhere to go
Back to the 101

I never said to feel relaxed
I never said to love me back
What was I next to you?

And in my mind it all goes black
Lost control of what I had
All my thoughts left, one by one

"I lost my way," that's what she said
Back to the 101
Back to the one, another one
Back to the 101

I caught the one, I caught the one
I caught the 101

I know I lost my way
This time we'll find a place
