

# Albert Hammond, Scared

You know that something inside of you still plays a part in what i do  
Always  
i'm here for you.  
I think that if we were all we had,  
that's more than most people ever have  
Anyway Oh Anyway  
You can Stay here.

i know you're still there because you're scared that you'll lose everybody.  
i know you're still there because you're scared that you'll lose everything.

i know you're still there because you're scared...

I'm here if you're scared to go through, anything just reach out in front of you always won't you stay  
So close we played it as if we cared,  
dont stop now that we're almost there Anyway, Oh i'm here for you.

i know you're still there because you're scared that you'll lose everybody.  
i know you're still there because you're scared that you'll lose everything.  
i know you're still there because you're scared...
