

Alecia Elliott, One Dream (W/ Lee Ann Womack)

Somewhere in our hearts
Somewhere deep inside
lives a dream
that's worth dreaming

Every now and then
I get a glimpse of where
he and I could fly
but you and I
share

One dream
One hope
we're heading down the same road
even though we don't know where it leads
we follow
the same star
I'm in love like you are
until he reaches out for you or me
we share
one dream

I imagined what would be
magical place is
waiting for me
it's still out there

our vision is the same
even though the world through
different eyes
you and I
share

One dream
One hope
we're heading down the same road
even though we don't know where it leads
we follow
the same star
i'm in love like you are
till he reaches out for you or me
we share
one dream

One dream
One hope
we're heading down the same road
even though we don't know where it leads
we follow
the same star
i'm in love like you are
till he reaches out for you or me
we share
one dream

one dream
