

Aleksandra Szwed & Vintage Vegas, For Once In

For Once In My Life
There's someone who loves me
The smile in your face
Makes me feel so secure

For Once In My Life
You're the reason I'm live in
You're the breath that I take
I'll be lost without you

And I believe you've taken me
For some kind of dream
To cure my broken heart
Love and tenderness

Promise the Moon and the stars
Swear, the best is yet to come
But promises I wouldn't take
To keep the flame forever young

Take me as I am
You living is hurting me
You know I love you far beyond as space and time

Promise the Moon and the stars
Swear, the best is yet to come
But promises I wouldn't take
To keep the flame forever young

For Once In My Life
There's someone who needs me
Looking to my eyes
All this love musty be true

And when you feeling deep inside
Your dreams are ... at night
Someone who understand you
Like the way I do
Someone who understand you
Like the way I do
Someone who understand you
Like the way I do
