

# Alessi, You Got The Way

Turn the music down  
Let me put my arms around you  
Who told you I was leavin  
Take a look behind, and see how far weve come  
Do you really think Id leave you, baby

Chorus:

You got the way  
To make me feel better, baby  
You got the words  
I wanna be hearin, baby  
I got a reason, its you Im believin tonight  
And if ya ever start to fall  
You know Ill be there to help ya  
Baby, baby, I dont think  
Id ever be the same  
If you werent here to call my name

(Chorus)

Its only words, its only words  
Look here in my eyes,  
But look here in my eyes

(Chorus)
