

# Alesso, Words (Feat. Zara Larsson)

I got the words  
I love you  
Sitting on the tip of my tongue

at your house again  
are we more than friends  
there's so much that I wanna say  
but I gotta hold it back  
so scared how you'll react  
I just hide it all away

i could give you it all  
in a minute could fall  
any minute but we go round and round  
i don't wanna mention commitment but I  
feel it slippin so please  
don't let me down  
me down

I got the words  
I love you  
Sitting on the tip of my tongue

oh I feel like  
as soon as they leave my mouth  
you're just gonna get up and run  
you're gonna run away

you know we connect  
more than just the sex  
but are you gonna let me in

I could set your world on fire  
but you're holding the lighter  
instead you're putting out our flame

I could give you it all  
in a minute could fall  
any minute but we go round and round  
I don't wanna mention commitment but I  
feel it slippin so please  
don't let me down

I got the words  
I love you  
Sitting on the tip of my tongue

oh I feel like  
as soon as they leave my mouth  
you're just gonna get up and run  
you're gonna run away

run away  
run away

I got the words  
I love you  
Sitting on the tip of my tongue

oh I feel like  
as soon as they leave my mouth  
you're just gonna get up and run  
you're gonna run away

if I say it now  
then one day i'll wake up and you've walked out

so i'll just stay here with  
the words I love you  
sitting on the tip of my tongue
