## Alex C. feat Yass, "Nothing"

Nothing

And nothing's where you're at

When you ain't got something

You'll never get it back

It's coming on like a drug

The universal power of one

But it don't mean nothing

If it all comes undone (uh-huh)

Fly away

If you fly away

You might die today

If you fly

Fly

Gimme some love

Gimme some skin

If we ain't got that then we ain't got much

And we ain't got nothing

Gimme some love

Gimme some skin

If we ain't got that then we ain't got much

And we ain't got nothing, nothing

You're left with nothing

And nothing's what you've got

When you ain't got no-one, no-one

You could have had the lot

And if it's over today

You'll never get that thing you had together, no way

You only get it once

Fly away

If you fly, If you fly

Gimme some love

Gimme some skin

If we ain't got that then we ain't got much

And we ain't got nothing

Gimme some love

Gimme some skin

If we ain't got that then we ain't got much

And we ain't got nothing, nothing

We ain't got nothing

A day's a number

Don't remember how you found it

You will never feel the same

And forever have to take

It for granted, don't remember our mistake

We ain't got nothing

A day's a number

Don't remember how you found it

You will never feel the same

And forever have to take

It for granted, don't remember our mistake

Gimme some love

So gimme some skin

If we ain't got that then we ain't got much

And we ain't got nothing, nothing

Gimme some love

So gimme some skin

If we ain't got that then we ain't got much

And we ain't got nothing, nothing

Gimme some love

So gimme some skin

If we ain't got that then we ain't got much

And we ain't got nothing, nothing

Gimme some love

So gimme some skin

If we ain't got that then we ain't got much And we ain't got nothing, nothing Send "Nothing" Ringtones to Cell
