

Alexia, Baby Baby Baby

Uh ah ah
Baby baby baby
Uh ah ah
Baby baby baby

Every time I see you close the door
I wish I could believe that you would never lie
As I see you walking down the street tonight
I ain't so sure that you'll be back again this time

(aah) Every time that you are by my side
Deep inside I know you'll never be my guy
(aah) Yet I think you've never really been in love
Baby won't you tell me now the reason why

(aah) But I can't forgive your eyes
Memories will never die

Baby baby baby (ooh) don't you want me
Don't you need me (aah) by your side (baby baby baby)
Baby baby baby (ooh) don't you want me
Won't you hold me (aah) one more night (baby baby baby)

Every time I see you've got the blues
There's a reason to be always by your side

But when I feel that you can tell me only lies
There's no chance for me to keep you satisfied

(aah) If you look into my soul
(aah) You could see a perfect world
(aah) But I can't forget your eyes
Memories will never die

Baby baby baby (ooh)
Oh baby (aah)
Baby baby baby
Baby baby baby (baby baby baby)

Don't you want me (ooh)
Don't you need me (ah)
Baby baby baby (baby baby baby)

(ah) If you look into my soul
(ah) You could see a perfect world
(ah) But I can't forget your eyes
Memories will never die

Baby baby baby
