

Alexia, Close To You

Ah ah

Everytime you say you're sorry
Everytime you know you'll be forgiven
One more time I've got to wonder
Tell me why you want to kill me inside oh baby
Give me something to remember

Close to you
Take me now
Close to your body
Ever and ever

Close to you
Love me now
Close to your body
Over and over

Anytime you need me

I don't wanna cry for loving
I don't wanna feel so sad and lonely
I can't stand it any longer
Tell me why you keep on pushing me aside oh baby
Give me something to remember

Anytime you need me

Everytime you leave me baby
Everytime you take a piece of my heart

Anytime you need me baby
