

Ali Gatie, Scared of Love

I know you don't believe in love,
But do you believe in me?
Am I asking for too much
When I ask you to believe
I know you're scared of love
But you ain't scared of me
But you ain't scared of me

I'll heal your wounds
I'll be right there to hold you
When you feel blue
When the nights turns dark
I'll shine on you
Girl I'll ride for you
I'll right those wrongs with you
I'll make sure that I do

When you feel pain yeah I feel it too
Matter fact I feel everything you're going through
I know those demons on your mind
Got you fighting all the time
But I tell you I'll be there protecting you

You the one, I swear that you and I was meant to be
Since I was born you my destiny
I'd risk it all for you, risk it all for you
And I ain't never giving up on you

I know you don't believe in love,
But do you believe in me?
Am I asking for too much
When I ask you to believe
I know your scared of love
But you ain't scared of me
But you ain't scared of me

I know that you won't open up
Cuz love always makes you bleed
I've been right there before
I know those scars take time to heal
I know you're scared of love
But you ain't scared of me
But you ain't scared of me

I'll heal your wounds
I'll be right there to hold you
When you feel blue
When the nights turns dark
I'll shine on you
Girl I'll ride for you
I'll right those wrongs with you
I'll make sure that I do

Ill share yours scars
We'll keep on fighting
Even when life gets hard
When the nights turns dark
I'll shine on you
Girl ill fight for you
I'll right those wrongs with you
