Never Leave You Lonely
Baby, baby, baby, babe uh (REPEAT MANY TIMES)

Tell me what's wrong
Things are not the same
Do you feel what I feel
Or do you think I'm playing games
When I say that I love you
And you're all that I need
So baby let go of your insecurities

I will never leave you lonely
I will never make you cry
All my love I wanna give you
Stay in my arms tonight
I will never leave you lonely
I will never make you cry
All my love I wanna give you
Stay in my arms tonight

Don't you see what you mean to me
Yeah
You may not have the finest things
But baby all the joy you bring
And all that we've been through
I'm still here lovin' you
Lovin' you
Satisfying all your needs
Don't you know I'll never leave
You must believe
I only wanna be with you

You and me
You and me boy
All I need
You're everything I need
Can't you see
Please don't go away
Stay with me
Please

And I can't imagine being without your love
And everytime I'm with you
I just can't get enough
You're the only one I want
The only one I need
So why can't you see that
I will never leave

All my love
All my life
All my time
You and I
