

Alice Cooper, Freedom

We the people of the United States
In order to form a more perfect union
Stop pretending that you've never been bad You're never wrong and you've never been dirty You're
'Cuz I never walk away from what I know is right
But I'm gonna turn my back on you
Freedom, we're gonna ring the bell
Freedom to rock, freedom to talk
Freedom, raise your fist and yell
Freedom to rock, freedom to talk
Freedom-ring
You're playing God from your ivory tower
Back off preacher, I don't care if it's Sunday
I ain't no angel, but I never felt better
We're a make-up metal generation
We're not as stupid as you want to make us
You better leave us man
'Cuz you sure can't take us
Nobody better tell you how to live your life
You gotta do it on your own
Freedom, we're gonna ring the bell
Freedom to rock, freedom to talk
Freedom, raise your fist and yell
Freedom to rock, freedom to talk
Freedom-ring
Cuz I never walk away from what I know is right
But I'm gonna turn my back on you
Freedom, we're gonna ring the bell
Freedom to rock, freedom to talk
Freedom, raise your fist and yell
Freedom
