Alice Cooper, Pessi-Mystic

Don't need a crystal ball for me to see clearly No astrology or Tarot cards Watching CNN and holding my breath To face the day scares me to death I'm pessi-mystic, I'm so fatalistic I'm pessi-mystic, I don't believe a thing I'm pessi-mystic, I'm so nihilistic I'm pessi-mystic for what tomorrow brings I can't hear a word you say So shut up, shut up, shut up, shut up I like being sick this way So shut up, shut up, shut up, shut up Everybody's mind is badly infected Everybody feeds the parasite Everything is dark so why not accept it? Everything is far more black than white I'm pessi-mystic, I'm so fatalistic I'm pessi-mystic, I don't believe a thing I'm pessi-mystic, I'm so pissed-off-istic I'm pessi-mystic of what tomorrow brings I can't hear a word you say So shut up, shut up, shut up, shut up I like feeling sick this way So shut up, shut up, shut up, shut up Shut up, shut up, shut up, shut up Shut up, shut up, shut up, shut up I'm pessi-mystic, I'm so fatalistic I'm pessi-mystic, I don't believe a thing I'm pessi-mystic, I'm so nihilistic I'm pessi-mystic of what tomorrow brings I can't hear a word you say So shut up, shut up, shut up, shut up I like being sick this way So shut up, shut up, shut up, shut up I can't hear a word you say So shut up, shut up, shut up, shut up I like feeing sick this way So shut up, shut up, shut up, shut up Shut up, shut up, shut up, shut up
