

# Alice Cooper, Road Rats [from the Motion Picture

We work this band 'cause we make it rock  
But we're the guys who make it roll  
We move the amps, the drums and junk  
Road rats  
We're a pack and the road's our home  
We worked the tours half a young man's life  
I spend a lot of time  
He got no bread to show for it  
Road rats  
Spent the cash on the chicks we find  
We're the men behind the man  
We're the backbone muscle clan  
Do a thousand one night stands  
If the band can take it  
If the stars can shake it  
Well, if those guys can take it we can  
Oh, we can, yeah
