

# Alice Cooper, Triggerman

I ain't got a name  
I don't gotta face  
No fingerprints or DNA  
I ain't got no eyes  
I don't got a tongue  
But I know what's going on  
I'm deaf and dumb  
I'm pure non-entity  
Don't even look for me  
I watch you when you sleep

I am the triggerman  
I am the underhand  
I'll keep you on your knees  
I am the brain police  
I am the triggerman  
I am the underhand  
I'm full of dirty tricks  
I'm twice as smart and  
Certainly twice as sick

I am always out of sight  
A shadow in the mist  
I don't need no alibi, cos  
I don't exist  
I'm pure non-entity  
Don't even look for me  
I watch you when you sleep

I am the triggerman  
I am the underhand  
I'll keep you on your knees  
I am the brain police  
I am the triggerman  
I am the underhand  
I'm full of dirty tricks  
I'm twice as smart and  
Certainly twice as sick

He's sick, he's sick, he's really, really sick  
He's sick, he's sick, he's really, really sick
