

Alice Glass, EVERYBODY ELSE

I don't want to be a face
I don't want to have a name
Like everybody else
I just want to erase
What I hate about myself
Like everybody else

Wont hurt you
Like everybody else
Desert you

I just want to be close to you
I want us to feel nothing
Pretend that I'm someone else
Put the blame on me I want to be at fault

Tie up my wrists like they're nothing
These blood stains will never come out
This is what I deserve
Tell me what you think I'm worth
God made me wrong
So I have to loose control
Like everybody else

I don't want to be a face
I don't want to have a name
Like everybody else
I just want to erase
What I hate about myself
Like everybody else

Won't hurt you
Like everybody else
Desert you
Like everybody else

I just want to be used by you
You know I have nothing else to do
Remind me when to feel something
Put the blame on me I want to be at fault

Tie up my wrists like they're nothing
Tie up my hands like it's nothing
This is what I deserve
Tell me what you think I'm worth
God made me wrong
So I have to loose control
Like everybody else

I don't want to be a face
I don't want to have a name
Like everybody else
I just want to erase
What I hate about myself
Like everybody else

Won't hurt you
Like everybody else
Desert you
Like everybody else

Like everybody else
Everybody else
Everybody else
