

Alice Merton, Learn To Live

They've got fire
Well I've got lightning bolts
They keep hunting
Trying to kill my hope

and everywhere I go
I see them in the corner of my eye
shouting that it's over
shouting that I'd stop the fight

can somebody tell me how to win the fight?
can somebody tell me is the fear inside?
I wanna learn how to live without the consequences
I wanna learn how to live without the consequences

shaking fingers
chest gets tighter now
try to say calm
try to come back down
but everywhere I go I see them in the corner of my eye

shouting that it's over
shouting that I'd stop the fight

will somebody tell me how to win the fight?
can somebody tell me is the fear inside?
I wanna learn how to live without the consequences
I wanna learn how to live without the consequences

I wanna learn how to live without the consequences
I wanna learn how to live without the consequences

I can see them waiting outside the window
trying to tell me how to live they won't go
I can see them waiting outside the window
trying to tell me how to live they won't go
they won't go
they won't go
they won't go

I wanna learn how to live without the consequences
I wanna learn how to live without the consequences
