

# Alicia Keys, Like The Sea

Love is like the sea  
Gets on your knees  
Then it pulls you in  
Then it takes you, takes you  
Over, over  
Love is like the sea  
Gets on your knees  
First your floating high  
Then takes you takes you  
Under under  
When it's cold  
Cold under water  
In the night time  
But I dove  
Dove to the bottom  
To see what I find  
That's when I saw a light  
A glowing paradise  
Thought I stay a while  
It's been calling me underwater  
Everything that I ever dream  
Taking my breath away  
Current got a hold on me  
Sweeping me away  
Wish I can stay  
Takes me to the top  
The cycle that never stops  
Love is like the sea  
Gets on your knees  
Then it pulls you in  
Then it takes you, takes you  
Over, over  
Love is like the sea  
Gets on your knees  
First your floating high  
Then takes you takes you  
Under under  
(Takes you takes you over  
Takes you takes you under)  
(Takes you takes you over)over  
(Takes you takes you under)  
Say I been told  
Told you only find it once in a lifetime  
So you better hold  
Hold on strongeer then ever  
Like it's the last time  
So when you see the night  
Like a ship in the night  
You will found a place  
You been looking for  
Like a distant shore  
Don't you ever look back again  
Here is something you should know  
Still see you are still in control  
Cheish everyday  
Cause never know  
It can take away  
The very thing you love the most  
Love is like the sea  
Gets on your knees  
Then it pulls you in  
Then it takes you, takes you  
Over, over  
Love is like the sea

Gets on your knees  
First your floating high  
Then takes you takes you  
Under under  
(Takes you takes you over) oh  
Takes you takes you under)  
(Takes you takes you over)so far  
(Takes you takes you under)this love like the sea  
(Takes you takes you over)  
Takes you takes you under)can you feel the pull  
(Takes you takes you over)it's calling you  
(Takes you takes you under)  
Love is like the sea  
Gets on your knees  
Then it pulls you in  
Then it takes you, takes you  
Over, over  
Love is like the sea  
Gets on your knees  
First your floating high  
Then takes you takes you  
Under under
