

Alicia Keys, Love Looks Better

All i , all i ever wanted
Was a dolar and a Chance
Fid, find, what i am made of
Alright

Coming, coming form the bottom
Better learn how to dance
Find, find what you're mede of
Alright

Feel like my love is wasting
Every day
Get so damn tired of chasing
Every day
And now it's you i am mimssing
Every day
Every day
Every day

So can we talk for a minute
Stop for a minute
All i wannna do is you
Can we touch for a second
Be us for a second
Don't matter what i give it to
My love looks better on you
My love looks better on you
Promise you baby
Promise you baby

Hold u pall i, all i ever wanted
Was a city and some keys
Run
Run through the street now
Alright

And now it's you i am mimssing
Every day
Every day
Every day

So can we talk for a minute
Stop for a minute
All i wannna do is you
Can we touch for a second
Be us for a second
Don't matter what i give it to
My love looks better on you
My love looks better on you
Promise you baby
Promise you baby

You're all i ever wanted
You're all i ever wanted
Socan we talk for a minute
Just stop for a minute
Cause all i wanna do is you

Promise you baby
My love looks better on you
Promise you baby
