

# Alicia Keys, Not Even The King

Money,  
Some people so poor all that they got is money  
Oh and diamonds  
Some people waste their life counting their thousands  
I don't care what they're offering  
How much gold they bring  
They can't afford what we got  
Not even the king  
They can't afford what we got  
Not even the king

Oh, castles  
Some people so lonely what good is a castle  
Surrounded by people  
But ain't got a friend that's not on the payroll  
Ohh and I don't care what they bring  
They can have everything  
They can't afford what we got  
Not even the king  
They can't afford what we got  
Not even the king

All the king's horses and all the king's men  
Came charging to get what we got  
They offer the crown and they offer the throne  
I already got all that I want  
All the king's horses and all the king's men  
They came marching through  
They offer the world just to have what we got  
But I found the world in you  
I found the world in you

So darling listen  
Your arms around me worth more than a kingdom  
Yea, believe that  
The trust that we feel the kings never felt that  
Yea this is the song we sing  
We don't need anything

They can't afford this  
This is priceless  
Can't afford what we got  
Not even the King  
Can't afford what we got  
Not even the king
