

Alicia Keys, She Don't Really Care

It's really the most purposeful and the most intentional
That's I've ever written music ever before, ever
And it is all about NY City
In so many years
Which is why I bring you into my world, a little bit
The story of NY City
The people, the sounds
I'm talkin' bout: Brooklyn, Bronx, Queens, Harlem
Coz that's she grew up!

She grew up in Brooklyn
She grew up in Harlem
She grew up in Bronx
She know she was a queen
She lived in Queens
But she don't really care
She don't really care
She throw them diamonds in the air
Diamonds in the air

She lived in Somalia
Her parents from Egypt
She was a queen in Cairo
I see y'all, I see y'all

But she don't really care
She don't really care
She throw them diamonds in the air
Diamonds in the air

She picking all the wrong ones
And she's looking for the right one in the wrong place
You remember her face?
The prettiest face, prettiest face
She looking for fulfillment
You would think she was looking for love,
Searching for love
You just looking to be taken care of
You can find her in Harlem or Brooklyn
You can find her Brixton or Kingston
She's a queen!
Know what I mean?
She think she want a baby and she do it with the wrong one
Coz she's looking for something but he don't really care
He don't really care
And life just isn't fair

She grew up in Brooklyn
She grew up in Harlem
She grew up in Bronx
She know she was a queen (
She lived in Queens
She don't really care
She don't really care
She throw them diamonds in the air
Diamonds in the air,

She lived in Somalia, talk about it
Egypt, Egypt
She was a queen in Cairo
She's a queen, yeah
But she don't really care
She don't really care
She throw them diamonds in the air

Diamonds in the air

Just there!

She lived in Somalia
Her parents from Egypt
She was a queen in Cairo
She's a queen,
But she don't really care
She don't really care
She throw them diamonds in the...
Diamonds in the air
