

# Alicia Keys, Wasted Energy (ft. Diamond Platinumz)

Do't want your love  
Don't worry who i am seein' tonight  
Ain't none of your business  
Too bad I ???  
Cause ready or not  
I am better on my own

Too many Times you turned a blind eye to the way i feel  
You're the reason why i am numb  
And when i try to give you my time  
It's never ever ideal  
Had to learn in the hard way

Wasted Energy  
Wasted Energy  
Wasted Energy  
Why did you  
Why did you fuck up the chemistry?

Broken promises along the way  
Lost count of how many you made  
My love /3x  
Tied up in your plans????  
Stage, no great escape  
But i gave you my?????

Too many Times you turned a blind eye to the way i feel  
You're the reason why i am numb  
And when i try to give you my time  
It's never ever ideal  
Had to learn in the hard way

Wasted Energy  
Wasted Energy  
Wasted Energy  
Why did you  
Why did you fuck up the chemistry?
