

Alicja Szemplińska, New Home (piosenka na Euro)

I'm walking down the street and I close my eyes
Holding on to memories of familiar skies
Here all on my own so I press rewind
To see the faces I recognise
'Cause the sounds I'm playing to ain't familiar anymore
'Cause the air don't feel like it did before
So if you can...

Show me how to make a way
Find the right words for me to say
Find the love and give myself the space
To build a life
A new home, a new home with you

Find it hard to talk about it
It ain't easy if I'm honest
It feels like a broken promise, I can't let go
No, I can't let go, ooh, at all
And it's hard to breath, it's been killing me all along

Show me how to make a way
Find the right words for me to say
Find the love and give myself the space
To build a life
A new home, a new home

Show me how to make a way
Find the right words for me to say
Find the love and give myself the space
To build a life
A new home, a new home with you
