

Alien Ant Farm, Calico

So make it real
Just make it real
That not a reason to fire me
That ain no real reason
It funny things cheapen when we disagree
If things got any worse then cheap would turn free
Calico cats and calico dreams
That ain too real
Just make it real
Feel all the seasons flood through you and me
And see what trouble she in
But that not a reason to fire me
That ain no real reason
Calico cats and calico dreams
That ain too real
Just make it real
Collisions hurt and abrasions bleed
It hard to deal when all you do is feel
Campfires swell into monstrous things
That summer heat that winter deep
And all your wild winds
They couldn stop me from flying
Calico cats and calico dreams
That ain too real
Just make it real
Collisions hurt and abrasions bleed
It hard to deal when all you do is feel
Just make it real
