

Alien Ant Farm, Denigrate

I didn't get you anything
Don't take it personally
I won't shower you in gifts
I don't bring that kind
And I'm broke besides

She didn't break while I save
Enough change to buy her things
You don't act like a queen

And this year has been deprived
To show for it I don't got a dime
If things could be different I'd have it
But I can't so I won't, That's it!
And I'm broke besides

She didn't break through my fame
We did not face it the same
Now I don't want to see your face
This is between us getting strait

You soon need, You'll soon need to guide the road [2X]

She didn't break while I save
Enough change to buy her things
You don't act like a queen
Your love is from what I've seen
