## Alien Ant Farm, Dole Roll

Cause if you would have been back by now, love this day

Don't be wrong don't take it away

If you would have been back by now

You'd muster up some sharpness, don't mind my eyes

Two angels sent from down

They bustin' heads cause we won't pray

That bitch won't save me

Why be that low

Cause if you would have been back by now, love this day

Don't stop

If you would have been back by now,

Muster up some sharpness, don't mind my eyes

These angels tore their gown

Conversion takes more than one day

That bitch won't save me

Why be that low

Cause if you would have been back by now, love this day

Don't be wrong, don't take it away

If you would have been back by now

You'd muster up some sharpness, don't mind my eyes

VeinPainTake one away, don't believe my load

Two angles sent from down

They bustin' heads cause we won't pray

That bitch won't save me

Why be that low

Cause if you would have been back by now, love this day

Don't stop, if you would have been back by now

Muster up some sharpness, don't mind my eyes

Know, all I know, all I knowand don't be afraid

Know, all I know, all I knowand don't be afraid
