

# Alkaline Trio, Fire Down Below

It's been a lifetime since I last confessed to you  
And I've had little trouble concealing the truth  
I've been nothing but lies and deceitful  
Here's the church open the people there for me  
Apologies have taken on a whole new meaning now

You've waited your whole life for this  
Beg for mercy and forgiveness  
Nothing up above but darkness  
And fire down below  
Me and my friends waiting on your soul

It's been a long time since I've last had words with you  
Not sure what I see now to tell you the truth  
About this feeling weighing heavily  
On my mind and chest cavity  
Don't pray for me one day you'll find  
I'm sleeping in my urn feeling just fine

You've waited your whole life for this  
Beg for mercy and forgiveness  
Nothing up above but darkness  
And fire down below  
Me and my friends waiting on your soul

Fix me a drink  
Tell me a story  
Take my head off  
These gut wrenching words  
Made my mistakes  
My guilt admissions  
Please pass a plate  
And the ammunition

You've waited your whole life for this  
Beg for mercy and forgiveness  
Nothing up above but darkness  
And fire down below  
Me and my friends waiting on your soul

You've waited your whole life for this  
Beg for mercy and forgiveness  
Nothing up above but darkness  
And fire down below  
Me and my friends waiting on your soul

You've waited your whole life for this
