Alkaline Trio, Halloween

[Originally by The Misfits]

Bonfires burning bright, Pumpkin faces in the night, I remember halloween. Dead cats hanging from poles, Little dead are out in droves, I remember halloween brown leaved vertigo, Where skeletal life is known, I remember halloween this day anything goes. Burning bodies hanging from poles I remember halloween, Halloween, halloween, halloween. Candy apples and razorblades, Little dead are soon in graves, I remember halloween this day anything goes, Burning bodies hanging from poles, I remember halloween, halloween, halloween, halloween, halloween, halloween, halloween.
