

All Star United, International Anthem

Listenin' to this
I'm transcending English
Something's bigger
Than the national hymn
If you're thick, too thin
Green, blue or pinkish
Hum together with a cellophane skin
A holy karaoke, prayer in stereo
Here it comes, here's to You
An international anthem is overdue
Here's to You
To the kings and queens
And all the president's men
It doesn't matter if you're strong
King Kong
Lose the things
Between yourself and Heaven
And then, when you're ready
You can hum along
A holy karaoke, prayer in stereo
From down here below
Here it comes, here's to You
An international anthem is overdue
Here's to You
From down to here below
In gratitude from Coco to Moscow
We hope you're pleased
With these rhyme schemes
And musical score like never before
Here it comes, here's to You
An international anthem is overdue
Here it comes, here's to You
An international anthem is overdue
Here's to You
