

All Time Low, Stay Awake

call it a cold sweat
start splitting hairs
i'm drinking too much i'm on my way to striking out
go to sleep with the pressure of everyone
watching and waiting are yours for the taking
but i still have my doubts

i said before you ask which way to go
remember where you've been

stay awake
get a grip and get out, your safe
from the weight of the world just take
a second to set things straight
i'll be fine
even though i'm not always right
i can count on the sun to shine
the dedication takes a lifetime
but dreams only last for a night

figure it out
boy you're tripping so pull yourself together
or you'll wash up like the rest
cause this ship is sinking
i'm thinking "i'm done for"
i'm watching the sails disappear underwater
cause i'm no captain yet

i said before you ask which way to go
remember where you've been

stay awake
get a grip and get out your state
from the weight of the world just take
a second to set things straight
i'll be fine
even though i'm not always right
i can count on the sun to shine
the dedication takes a lifetime
but dreams only last for a night

believe you me
if give them anything
id tell them anything
just show them everything
believe you me
id tell them everything
id tell them anything

cause you ain't the only one's who wanna live it up!
you ain't the only one's!

stay awake
get a grip and get out your state
from the weight of the world just take
a second to set things straight
i'll be fine
even though i'm not always right
i can count on the sun to shine
the dedication takes a lifetime
but dreams only last for a night
