

All Together Seperate, I Won't Slow Down

All Together Seperate
Unusual
I Won't Slow Down

Chorus:

I wont slow down, aint gonna let nobody turn me round
I wont back down, Ill fight face to face to my last breath,
but I wont slow down

Day after day, temptation comes around my way
Week after week, its almost like shes speaking
Nobodys watching, youre only human
Well she gives a little, but she takes a lot and I just bought the lie
Why do I do the things I dont want to
And go against what I know to be true
Forgive me now like only You can do and Ill run to Youand I

Chorus

Week after week, Im listening to the words You speak
Day after day, its almost like her singing
I know Youre watching, so who am I fooling
Im just a little, but You give a lot, so I keep wondering why
Why do I do the things I dont want to
And go against what I know to be true
Lord, forgive me now like only You can do and Ill run to Youand I

Chorus

I wont slow down
Ill keep on running
Running right into Your open arms
Cause I can see You here
