

Allen/Olzon, Worlds Apart

Right here
Right now
But still a thousand miles away

Never been
More alone
It doesn't matter if you stay
Can't you see
Can't you feel
I'm right by your side
I'm alive
I am real
I don't want
You to hide
So close
But far away
I can travel
Night and day
I can search
For a lifetime
Without finding you
Worlds apart
No matter
How close we are
No matter how hard we try
We are worlds apart
All is black
All is dark
I can't find the light
Whatever I try to do
I can never get it right
Take my hand
Take it now
Before it is too late
I will lead you back
Guide you home
This is not our fate
So close but far away
I can travel night and day
I can search for a lifetime
Without finding you
Worlds apart
No matter how close we are
No matter how hard we try
We are worlds apart
So close but far away
I can travel night and day
I can search for a lifetime
Without finding you
Worlds apart
No matter how close we are
No matter how hard we try
We are worlds apart
No matter how close we are
No matter how hard we try
We are worlds apart
Too far apart
