

Aloha From Hell, My Love You Are

Let people talk, they dont get it all
They dont know how you make me feel
Im falling into love so real
Its sweet like honey on my fingertips
Its on my lips
And its not secret anymore
Youre here and nothings like before
Dont ever wanna let you go
My love you are
My love you are
My love you are
You make me fall so hard
My love you are
My love you are
It only matters how we feel
My heart is open there is no fear
And Im not scared to lose you
Let people talk they dont get it at all
Our love will stand the test of time
No matter what they say, youre mine
I stand by every word youll see
Thats me
My love you are
My love you are
My love you are
You make me fall so hard
My love you are
My love you are
My love you are
My love you are
My love you are
My love you are
My love you are
My love you are
My love you are
You make me fall so hard
My love you are
My love you are
My love you are
My love you are
You make me fall so hard
My love you are
My love you are
My love you are
My love you are
My love you are
