

# Alok, Side Effect (feat. Au/Ra)

Tell me all your lies  
Play tricks on my mind  
I don't care (I don't care)  
I switched on the lights  
You ain't on my side  
I don't care (I don't care)

Why do you look so confused?  
I know what you didn't do  
You still wanna play your games  
I am wiser, I have changed  
Yeah, now the joke's on you

It's the side effect of love to lose control  
Just to realize you're better on your own  
It's the side effect of love to want it all  
You can't get enough until the feeling's gone  
It's the side effect of love  
Just to realize you're better on your own  
It's the side effect of love to want it all  
You can't get enough until the feeling's gone  
It's the side effect of love

Look into my eyes  
You will realize  
I don't care (I don't care)  
I am in disguise  
Don't need you tonight  
I don't care (I don't care)

Why do you look so confused?  
I know what you didn't do (I know what, yeah)  
You still wanna play your games  
I am wiser, I have changed  
Yeah, now the joke's on you

It's the side effect of love to lose control  
Just to realize you're better on your own  
It's the side effect of love to want it all  
You can't get enough until the feeling's gone  
It's the side effect of love  
Just to realize you're better on your own  
It's the side effect of love to want it all  
You can't get enough until the feeling's gone  
It's the side effect (Of love)  
It's the side effect of (Love)  
It's the side effect of love to want it all  
You can't get enough until the feeling's gone  
It's the side effect of love
