

# Amaranthe, Boom!

Everything starts with a boom!  
Boom!

Hold up!  
Let me put my shades on  
Lit up a fuse for your remedy  
Tried to fix my deep insanity  
Like the big, big bang killed Kennedy  
Let your bullshit tick, tock, tick, tock, tick, go boom!  
They tried to keep me locked down  
Jail time done, out of luck son  
In my jacket, dynamite back in my ride and my backpack  
This starts with a boom!  
Boom!

I'm done with the hypocrites, down with the strife  
Get high from gasoline with touch of dynamite  
I'm sick of cyanide, a handgun ain't my style  
With a boom, boom, boom  
I set it right

Done with the politics, down with the lies  
'Cause everything looks good with a thousand farenheit  
You cannot get offended when everything goes bright  
From the boom, boom, boom  
I set it right  
Boom!

Rock solid to the bricks  
Put the C4 to the wall till it sticks  
My remote goes click, click till it ticks  
'Cause I tricked snitches quicker than politicians  
Them bitches play their tricks, you dig it slim? What?  
Now this is payback bitch

I'm beginning everything, I take it to limit  
But I'm killing for the feeling, gotta know I feel invincible  
Ticket ticket taken to the elevator  
Hell I'm a killer, like Atilla, I'm unstoppable  
Keep me locked down, jail time done  
Out of luck son, in my jacket: dynamite back in my ride and my backpack  
Sticking it back back, everything starts with a boom!

I'm done with the hypocrites, down with the strife  
Get high from gasoline with touch of dynamite  
I'm sick of cyanide, a handgun ain't my style  
With a boom, boom, boom  
I set it right

Done with the politics, down with the lies  
'Cause everything looks good with a thousand farenheit  
You cannot get offended when everything goes bright  
From the boom, boom, boom  
I set it right

(Oh wow, that's so cool GG, what else goes boom?)

The breakdown goes BOOOOOOM!

Hell, I'm unstoppable  
This time it comes back to ya'll  
(Hell I'm a killer like a Attila, I'm unstoppable)  
God, I'm invincible  
I ain't taking your shit no more

Shut up  
Let me put my shades back  
'Cause it is  
Killed or be killed, I'm begging to feel  
Like obliterating everything is my will  
Burn the vicinity, all I incinerate  
Bodies piled up I see, thrown in the lake  
Like an Apache, I trigger the demon  
Inside of me, mentally ill, your doom  
Hate the stupidity, screw the stability  
Yelowolf, pass me the whiskey, boom!

I'm done with the hypocrites, down with the strife  
Get high from gasoline with a touch of dynamite  
I'm sick of cyanide, a handgun ain't my style  
With a boom, boom, boom  
I set it right

Done with the politics, down with the lies  
'Cause everything looks good with a thousand fahrenheit  
You cannot get offended when everything goes bright  
From the boom, boom, boom  
I set it right

Everything ends with a boom!
