

# Amaranthe, Countdown

You got immersion  
Conclusion that will set us free  
It takes us closer and closer  
To human, how we wanna be

Invitation was a strife  
I couldn't that we tried it all  
Tried it all, I descend before the countdown  
From the ocean of emotion  
I will wake up when I'm plentiful  
Breaking the spell, the appearance of perfection

It's time to open up the shell  
Trace the hidden spell  
Into my breakdown  
It's my countdown  
We gonna shoot it like a gun  
Hit and then we run  
Into my breakdown  
It's my countdown

Get my injection, the poison  
Let's believe that's all I need  
I can't describe it, the picture was too sharp  
I couldn't get it off, no

A description, a prescription  
I can't handle, but I tried it all  
A deception, a recession to the countdown  
From an ocean of emotion  
I will wake up and I'm already gone  
Breaking my shell, I initiate deception

It's time to open up the shell  
Trace the hidden spell  
Into my breakdown  
It's my countdown  
We gonna shoot it like a gun  
Hit and then we run  
Into my breakdown  
It's my countdown

is my profession, follow my lead  
my seduction, I down  
my obsession (it is my moment)  
my self-deception, my addiction

It's my obsession, the pressure  
To be a slave of what I trace  
I force it higher and higher  
The are leadin' to your name, oh yeah

I wanna swing around in hell  
I'm gonna scream and shout it out in vain  
Tried it all, I descend before the countdown  
Be remembered  
I will wake up if already dead  
Breaking the spell, the appearance of perfection

It's time to open up the shell  
Trace the hidden spell  
Into my breakdown  
It's my countdown

It's time to open up the shell  
Trace the hidden spell  
Into my breakdown  
It's my countdown  
We gonna shoot it like a gun  
Hit and then we run  
Into my breakdown  
It's my countdown

It's time to open up the shell  
Trace the hidden spell  
Into my breakdown  
It's my countdown  
We gonna shoot it like a gun  
Hit and then we run  
Into my breakdown  
Now I shutdown  
My countdown
