

# Amaranthe, Insatiable

Conversation, feel a fixation  
On your wounded pride  
Accusation, coming closer to admission  
I try to keep it all a secret but I cannot lie  
Mass consumption, testimony to our condition

Your conscience is blind  
Now the mob controls your mind

Spinning all around  
Let the mob control your mind  
It's irresistible  
And I swear we are unchangeable  
Hit the ground  
Don't you dare to make a sound  
You know just what we are  
Yeah, this world is insatiable

Near-extinction, just an equation  
That you brush aside  
Decomposition  
Spin a little faster to attrition  
Your calculations lack the fact  
That armageddon's nigh  
Your addiction  
Enemy beyond our comprehension

You revel in the sound  
Of a world that's falling down

Spinning all around  
Let the mob control your mind  
It's irresistible  
And I swear we are unchangeable  
Hit the ground  
Don't you dare to make a sound  
You know just what we are  
Yeah, this world is insatiable

Exploitation - Settle the deed, and feed the atrocity  
Aggravation - Feed the mass oppression  
Condemnation - Inherit the greed, a human pathology  
Cancellation - An abject dispossession

Spinning all around  
Let the mob control your mind  
It's irresistible  
Yeah, this world is insatiable

Spinning all around  
Let the mob control your mind  
It's irresistible  
And I swear we are unchangeable  
Hit the ground  
Don't you dare to make a sound  
You know just what we are  
Yeah, this world is insatiable
