

# Amber Van Day, Kids In The Corner (piosenka z 1990)

We're a product of a system  
In a world that never listens  
To the messed up truth  
We're a burden and a blessing  
And we keep you second-guessing  
That's what we do

We're the kids in the corner  
We don't look like you  
We're the kids in the corner  
We ain't taking shit from you, nah, ah  
We know we go to dirty places  
To find familiar faces  
Lost in another life  
To forget that we ain't fine  
(never ever break alone  
Never ever let you break alone)

We're the kids in the corner  
Wear our heroes on our clothes  
Together we feel a little warmer  
Cause we're the only ones who knows  
That we all cry from time to time  
In the dark, our eyes still shine  
Cause We're the kids in the corner  
All our heroes never die  
Die, /4x  
All our heroes never die  
Die, /4x

Put your hands around our throat  
Call us 'generation loko'  
But you won't silence us  
While you wonder how we're stable  
While we're dancing on the tables  
All push and shove

It's because we know we go to dirty places  
To find familiar faces  
To know we ain't alone-lone  
We're the kids in the corner  
Wear our heroes on our clothes  
Together we feel a little warmer  
Cause we're the only ones who knows  
That we all cry from time to time  
In the dark, our eyes still shine  
Cause We're the kids in the corner  
All our heroes never die  
Die, /4x  
All our heroes never die  
Die, /4x

We will be who we want to be  
Make heroes of you and me  
We live for the revelry  
So let me hear you say  
We will be who we want to be  
Make heroes of you and me  
We live for the revelry

We're the kids in the corner  
Wear our heroes on our clothes  
Together we feel a little warmer  
Cause we're the only ones who knows

That we all cry from time to time  
In the dark , our eyes still shine  
Cause We're the kids in the corner  
All our heroes never die  
Die, /4x  
All our heroes never die  
Die, /4x
