

# Amberian Dawn, Cherish My Memory

Feel empty tees in my eyes  
Twisted and fold try to defeat with my will, to keep on  
My time has gone for me to me wild  
Time has make me ready to heal an get palm,  
And the shit is going  
Far be snitching and tell me Im starving  
You get me watch but see Ill be holding  
Remember this hitters they will never forget me  
Cherish my memory  
Look for me, reach for me, tell me one story  
Look at me what you see  
Remember me, think of me, reach me  
You must remember me  
In my head I felt thousand signs  
Lots kept me warm and carry the sky  
I found it now a sign that shows, I blow it where I go  
Sky is rising and ...the shit is really  
Talk to me , sake for me, tell me you starving  
Look at me what you see  
Remember me, think of me, reach me, never forget me  
Cherish my memory  
Come to me, reach for me, tell me your story  
Look at me what you see  
Remember me, think of me, reach me, never forget me  
Cherish my memory  
Talk to me , sake for me, tell me you starving  
Look at me what you see  
Remember me, think of me, reach me, never forget me  
Cherish my memory  
Come to me, reach for me, tell me your story  
Look at me what you see  
Remember me, think of me, reach me, never forget me  
Cherish my memory
